

International School Award 2015-2018 awarded by British Council

We are proud to announce that we are awarded International School Award second time in continuity. To achieve this height we have gone through number of projects dealing with International Agenda like Gateway to the world Kitchen – catering ideas of different cuisines of the world where at one platform student from England and Palestine shared their recipes with our school.

We have also made our students aware of today's burning topic of water management by sharing projects, ideas, activities with different partner schools from England and Mexico to incorporate in our Indian System.

Motivating by continuous success we want our students to excel more on global platform. Now we are planning to undergo various other exchange program for coming session 2015 -2016 which will be updated soon.
