

DAV PUBLIC SCHOOL, SECTOR -7 ,ROHINI, NEW DELHI 85

Dear parents

Greetings!!

In today's digital world the potential of information technology as a valuable learning resource is immense. However, If children use the Internet without safety awareness they might fall prey to illegal activities or abuse such as cyber bullying, fraud or something even more gruesome. Hence awareness of Internet safety norms is absolutely indispensable to make children free to explore knowledge without feeling intimidated.

At DAV Rohini, we discourage students from actions detrimental to themselves, their peers and value system.

In the spate of recent disturbing incidents we understand the need for security of our children and seek your cooperation to deal with frightening viral challenges like Momo challenge. Some anonymous bully sends disturbing online challenge along with violent images and a series of increasingly dangerous dares to the naive children which can be devastating.

In the interest of health and safety you are requested to:

- ✓ Have regular discussions of the online experiences of your child.**
- ✓ Monitor and manage children's online behavior.**
- ✓ Not to overlook any suspicious behavior if it comes in your notice.**
- ✓ Check the mobiles to see if any suspected or unknown contact is approaching the child.**
- ✓ Stop children from playing any suspicious games and using malicious software.**
- ✓ Track the frequent visits of the child to cyber Cafe.**
- ✓ Frequently change the passwords of Email accounts and other social networking sites.**
- ✓ Advise the children not to accept any invitation to play the game from any unknown number and not to click any unidentified link.**

On finding a child in distress parents should resort to counseling them and guiding them by providing a positive attitude.

Without support and guidance from the parents the chances of children being exposed to the unknown world of "Internet dangers" increases tremendously.

Remember awareness is the best form of protection. Precautionary measures will go a long way in dissipation of this nuisance.

Regards

Principal
