

# DAV PUBLIC SCHOOL, SEC-7, ROHINI

Dear Parents,

DAV/RHN/ADMIN/34/2020

Greetings to you all on the occasion of Holi and congratulations as we would soon be entering a new and exciting academic session 2020-21 of learning and development. Currently, we, as part of God's creation are facing a global health crisis in the form of Coronavirus (COVID-19). We thus, feel the need of collectively teaching our children simultaneously how to take good care of their health. Some basic precautions to be taken are:-

## Tips to prevent Coronavirus

1. Avoid handshake, hugging, kissing, holding hands with or of friends, relatives, strangers, etc. Instead, greet with a Namaste. Follow directions given in the visuals below.

2. Avoid playing Holi with wet colours and water.

3. Avoid gathering for occasions, celebrations, festivities and going to public places like malls, parks, market places, etc. presently.

4. Avoid outside food as it may be contaminated.

5. Drink hot water or soups that may help to keep the body temperature higher than regular.

6. Use masks for protection when moving out.

Prepare your child for future which may be more challenging than today. Do not worry about one or two pen-paper tests. In an endeavour to pave a progressive and healthy future pathway for our children, we stand strong with you and look forward to your whole hearted support equally. We also solicit your suggestions for new plans in the upcoming session for an even robust teaching learning process at DAV, Rohini.

Regards

Principal
