

Indians proudly celebrate October 8 as the day to pay tribute to the air warriors of Indian Air Force (IAF) ✈ who tirelessly defend the nation by securing the Indian airspace and conduct rescue operations during natural calamities.

This year the Indian Air Force (IAF) marks its 90th anniversary.

To commemorate the occasion and enable students to raise awareness about IAF as an organization that works towards strengthening national security, students of middle wing enthusiastically prepared aircrafts using waste materials.
